

Flying to Hilton for breakfast

The "mess hall" was really hopping around 8:30 a.m. on Sunday, July 22, for the annual Hilton Rotary Drive-In, Fly-In breakfast.

Hilton resident **Mark Romanofsky** sits in his Trike, an ultralight that he built. He said that he has flown around the area with three Canada geese.

A Waco biplane sits on the tarmac, glistening in the morning sun. The plane looks brand new but actually was built in the 1960s.

Bud Hendershot has three planes but preferred to roll around his farm visiting with attendees at the Fly-In.

"Plane" ride.

The \$5 breakfast feast featured scrambled eggs, bacon, French toast, sausage, potatoes and a drink. The line grew to about 275 around 9:30 a.m., in what was surely a record attendance, helped by a gorgeous summer weather morning and a great day for flying. Proceeds from the breakfast are distributed in thirds, one portion each going to the Hilton Fire Department, Camp Haccamo and Mercy Flight. Last year each received over \$1,000.
