WORKING TOGETHER TO MOVE SMALL BUSINESS FORWARD

Phase 1

COVID-19 Small Business Economic Assistance Grants

In response to recent economic impacts associated with the COVID-19 health crisis, Supervisor Reilich and the Town Board have decided to allocate newly available federal funds to assist small locally owned businesses in the retail and service sector which are working to restart in the wake of the COVID-19 health crisis. This program responds to an Urgent Need in the local business community by providing a quick shot of financial assistance to cover certain operating expenses and help bridge the gap as we restart our local economy. Program funds have been allocated from a supplement to the town's Community Development Block Grant (CDBG), pursuant to the Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020. Grant funds are not intended to cover revenue loss or expenses incurred during the shutdown, instead the funding will be used to help you cover operating expenses as you restart business. Examples of possible eligible expenses include insurance or utility payments, inventory, and equipment or services associated with adapting to social distancing requirements as you open the doors.

Funds will be available to businesses which can document revenue loss resulting from social distancing restrictions and have a clear plan for reopening and maintaining employment as restrictions are lifted. Complete applications which meet the eligibility requirements will then be vetted based on criteria described in following pages. The town will begin accepting applications on Tuesday, June 2, 2020, and awards will be granted on a rolling basis until the funding is exhausted.

Economic development programs are among the core recommendations of the town's 2020 Comprehensive Plan, and they are more important now than ever. Follow-up programs will be announced later this year. We are committed to strengthening Greece's local economy, and we look forward to working with you.
